

**Susanne Aaes** is from Denmark.

She specialises in working with glass in order to create unique pieces of art, each which tell their own story, each piece one of a kind. There are no repeats. Susanne is a varied, inventive and exuberant artist.

*"I take my inspiration from every day life - the sky, the sea, the harbour, the town, the street and everything around me. This awareness gives birth to ideas that ultimately are realised in my art. This way, the ring closes it's circle."*

Susanne exhibits very original sculptures which have made her a sought after artist. She has had numerous exhibitions in Denmark, and has also shown her works in Germany, Holland, Belgian, Norway, Sweden and Iceland.

We are very proud that she has chosen us for her first showing in the UK.

Moon Shadow

Lost in a land of promises

The other side of the coin
